

GETT North America

GETT North America

GETT® North America is a subsidiary of GETT with Houston as place of business

A warm welcome to GETT® North America

We are your partner for sophisticated special keyboards and man/machine interface solutions in the USA and Canada. Our products and solutions, which we manufacture using the InduKey brand, have been specially developed for the industrial, commercial and medical sectors.

You can obtain reliable products, top quality and individual solutions from us as a manufacturer, even if you only require small numbers of items. We can add your logo to a flat keyboard or even provide a complete OEM operating panel.

GETT North America, which has its headquarter in Houston, Texas, was established as a subsidiary of the German company, GETT Gerätetechnik GmbH, in 2007. Since that time, we have set up a network of competent representatives and distributors to advise our customers locally all over North America.

We look forward to receiving your enquiry!

Let us help you:
info@gett-na.com
