

A digital Update for hospitals

A digital Update for hospitals

Are you already benefiting from the Hospital Future Fund?

The German parliament adopted the Hospital Future Act on 18 September 2020. The federal and state governments are making available funds of up to EUR 4.3 billion. German Health Minister Jens Spahn is using this investment program to provide a digital update for hospitals. This will encourage necessary investments, including those for organizing procedures, communications and documentation.

Make use of this opportunity and invest in your data input devices. Data input devices like keyboards and PC mice are still severely underestimated as sources of germs in everyday medical situations.

Thanks to our product portfolio, we are your reliable partner for switching to hygienic keyboards and mice.

Jana Standar, Head of the Products Division, is looking forward to talking to you
