

# TKV-084-FIT-TOUCH-IP65-MGEH

TKV-084-FIT-TOUCH-IP65-MGEH

**Compact stainless steel keyboard with integrated touchpad and LABS-free option**

This keyboard is characterized by compact dimensions and robust stainless steel construction. It is used in demanding environments with limited space. The flat, rounded key caps provide an excellent tactile feel; The integrated touchpad allows comfortable cursor control.

On request, the keyboard is available as a LABS-free variant, which can then be safely used in lacquer and color-applying environments. Customizations such as adding your own logo or specific country variants are also possible in small quantities.

Please note also our information "[Resistance to materials](#)" and "[Cleaning instructions](#)".

- High quality, compact housing made of stainless steel
- High impact resistance and splash-proof design
- Stainless steel buttons with abrasion-resistant laser marking

- LABS versions available
- Individual adjustments on request
